MARKET DISRUPTION

The Market Problem & Advance Capital Bottleneck

MARKET GAP: $1.2B AFRICAN CREATIVE ECONOMY

Independent creators and live promoters face acute cash flow friction and fragmented software

1. The Live Capital Trap

Live events drive majority cash flow, but advance capital is broken:

- **Upfront Drain:** Sound, security, marketing, and talent deposits must be paid 7–14 days before show night.
- **Receivable Delays:** Venue guarantees and corporate brand sponsorships settle net-14 to net-30.
- **Predatory Labels:** Traditional label tour support demands 360-deals, seizing master copyrights and publishing rights.

2. Fragmented Tooling & Churn

Creators are forced to patch together 5+ disjointed subscription apps:

- **SaaS Subscription Fatigue:** Creators release music episodically. Monthly charges lead to 12% monthly churn.
- **Siloed Fan Data:** Mailchimp, DistroKid, and Spotify do not talk to each other; fan contacts are lost.
- **Uncollected Sync Royalties:** Without ASCAP publishing administration, independent sync royalties go uncollected.

3. The Intermaven Solution

A unified creator ecosystem backed by cash-generative weekly live residencies:

- **Credit-Based Moat:** Non-expiring unified credits with zero monthly recurring charges. 100% upfront float.
- **Live Proving Ground:** Weekly Friday residency at B52 Lounge generating immediate weekly cash flow.
- **Institutional Publishing:** Direct pipeline to $120,000+ Sony Music Publishing sync placements.

BUSINESS MODEL ADVANTAGE

Strictly Credit-Based Pre-Paid Engine

ANTI-SAAS CHURN ARCHITECTURE

Zero monthly subscriptions • Zero churn friction • 100% upfront working capital float

How the Unified Credit Top-Up Engine Works

The entire Intermaven ecosystem completely rejects monthly recurring billing. Every service, compute action, and store item is fueled by non-expiring **Unified Network Credits**:

Universal In-Context Reload
One-click M-Pesa STK push (min KES 200) and Stripe Card (min $5.00).

Non-Expiring Utility
Credits never expire. Creators feel zero subscription pressure or penalty.

Earn & Burn Flywheel
Tips and music sales convert to credits to buy mastering or WhatsApp CRM ads.

Hostinger Reseller Link
Domain registrations and EPK hosting paid seamlessly in platform credits.

Why Investors Value This Over Traditional SaaS:

- **Negative Working Capital:** Cash is collected upfront at reload; costs occur only as credits are spent.
- **Zero Cancellation Churn:** No monthly billing drops or churn cohort decay during off-seasons.
- **Higher Lifetime Value:** Active creators reload KES 2,000–5,000 during release cycles without hesitation.

Credit Pricing & Usage Matrix

SERVICE / ACTION	CREDIT COST	CASH EQUIV.
TuneStream Full Album	50 Credits	$9.99 / KES 1,300
Lossless Single Audio	5 Credits	$0.99 / KES 130
Producer Stem Pack	150–500 Credits	$29.99 – $99.00
Sony Sync Submission Fee	150 Credits	$30.00 / KES 3,900

Strategic Asset Multipliers

- **Cross-Border Corporate Structure:** Dual registration of *Intermaven Network, LTD* (Kenya) and *Maven Global Inc.* (USA) enables institutional US dollar contract execution and local M-Pesa clearing.
- **TuneMavens Publishing (ASCAP):** Securing ASCAP publisher status ($50) allows direct collection of performance & mechanical royalties worldwide with 0% intermediate leakage.
- **Sony Music Publishing Submission Desk:** $30/song fee initiates review for $120,000+ sync opportunities and $70k/yr back-end royalties.
- **Merchandise Self-Liquidation:** KES 45,000 inventory turns into KES 90,000 gross over opening weeks.

INVESTMENT STRUCTURING

Three Attractive Investor Return Options

INVESTOR TAILORED

Flexible structures tailored for high-yield credit funds, syndicates, and equity venture capitalists

Option 1: Senior Debt

RECOMMENDED

20.0% – 24.0% p.a.

1.8% – 2.0% Monthly Yield with weekly priority liquidity.

- **First-Dollar Priority:** Recouped directly from Safaricom M-Pesa event collections before promoter payouts.
- **Weekly Amortization:** Capital recycles continuously, drastically lowering lender risk.
- **Beats Bank Yields:** Significantly exceeds Treasury Bonds (15–17%) and Bank Deposits (9–12%).
- **Zero Equity Dilution:** Pure debt return.

Option 2: Rev-Share Royalty

FAST PAYBACK

1.25x – 1.30x Cap

10% Event Gross + 5% Digital Credits until cash return cap is hit.

- **Cash Multiplier:** Generates KES 1,875,000 on full KES 1,500,000 facility drawdown.
- **Accelerated Velocity:** Projected full payback in **7 to 9 months** based on B52 run-rate.
- **Performance-Linked:** Aligns investor with ticket, bar, and digital credit reload surges.

Option 3: SAFE + Warrant

VENTURE UPSIDE

$1.2M USD Cap

Post-Money SAFE Note with 20% discount on institutional Seed.

- **Equity Upside:** Converts into equity in parent Maven Global / Intermaven holding company.
- **Growth Warrant:** Option for an extra 2.5% common equity at fixed strike within 36 months.
- **Pan-African Scale:** Captures exponential 5-year value ($500M+ KES gross run-rate).

Collateral Security: Senior floating charge on B52 weekly contract receivables, M-Pesa Paybill cash, and physical merchandise.

INSTITUTIONAL GRADE ESCROW

FINANCIAL UNDERWRITING

Unit Economics & Debt Service Coverage

DSCR: 3.42X COVERAGE

Resilient 3.42x DSCR ensuring prompt weekly repayments even under stress scenarios

Monthly Operating Statement (Steady State B52 Residency)

REVENUE INFLOW / EXPENSE LINE	MONTHLY (KES)	MONTHLY (USD)
Fixed Venue Contract Guarantee (4 x KES 80k)	KES 320,000	$2,462
Bar & Alcohol Revenue Share (4 x KES 100k)	KES 400,000	$3,077
Merchandise Gross Receipts (4 x KES 30k)	KES 120,000	$923
Corporate Brand Partnerships & Sponsorships	KES 300,000	$2,308

TOTAL MONTHLY OPERATING EXPENSE	**(KES 403,300)**	**($3,102)**
NET MONTHLY OPERATING CASH FLOW	**KES 736,700**	**$5,667**

Debt Service Coverage & Downside Stress Test

DEBT SERVICE REQUIREMENT

KES 215,000 / month ($1,654)

Amortizing KES 500k outstanding principal + interest

Downside Scenario Modeling:

- **Stress Case 1: Zero Brand Deals:** Even with KES 0 from sponsors, gross event revenue is **KES 840,000 ($6,462)**; net cash flow of KES 436,700 still covers debt service by **2.03x**.
- **Stress Case 2: 40% Rain / Bad Weather Hit:** Bar sales drops to KES 60k/wk; fixed venue guarantee (KES 80k) cushions downside; facility service is preserved.
- **Receivable Timing Bridge:** The revolving line bridges corporate sponsor Net-30 payment terms without stalling weekly show production.

HIGH-VALUE DIGITAL ASSETS

SONY PUBLISHING DEAL FLOW

Sony Sync Licensing & TuneStream Music Store

$120,000 Sony Music Publishing sync placements, $70k/yr royalties, and lossless digital sales
